Getting There Together: How to Implement a Collaboration

Presented by the Trauma Prevention Initiative Training and Technical Assistance Team

The goal of the Trauma Prevention Initiative, established in December 2015, is to reduce trauma visits and deaths throughout Los Angeles County, beginning with reducing the high rates of violence in South Los Angeles. The Initiative will build a foundation for a comprehensive approach to violence prevention and intervention by coordinating strategies across the lifespan, leveraging resources of existing programs and developing innovative programs, policies, and partnerships.
